WELCOME TO

Mayo

Mayo Manufacturing Company offers a unique blend of products and services for agricultural customers.

Our parts supply division carries a large inventory of power transmission components for potato, sugar beet, grain and bean producers as well as industrial users and processors.

Our manufacturing division provides belt conveyors and custom design services for the handling of edible beans and other commodities. In addition, Mayo provides a range of potato handling equipment.

All of our products are the highest quality available.

SAFETY

Your safety is important to us. Read the safety manuals. Make sure that all equipment is disengaged when servicing and assure that shields are in place.

For electric equipment, have an electrician regularly inspect and provide service to ensure safe operation.

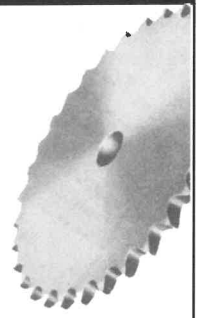

Contact Mayo at any time that we can be of assistance in providing safety manuals, shields and advice.

INDEX

Idlers & Sprockets	4-7
Bushings	8
Chain Links	9-10
Weld A Hub & Sprockets	10-11

ORBIT MOTORS

ORBIT MOTORS

- Char-Lynn hydraulic motors are high-torque motors with fixed displacement.
- Smooth running over the entire speed range.
- High starting torque and high-efficiency.
- Long life under extreme operating conditions.
- Robust and compact design.
- High radial and axial bearing capacity.
- For applications in both open and closed loop hydraulic systems.
- All Char-Lynn motors have a case drain.
- Suitable for a wide variety of hydraulic fluids.
- Seal kits available.

Applications include:

- Machines for agriculture and forestry.
- Mining machinery.
- Contractor's equipment and access platforms.
- Grass cutting machinery.
- Cranes and transports.
- Special vehicles.
- Ship's equipment and winches on fishing vessels.
- Machine tools.
- Woodworking and sawmill machinery.
- Plastic and rubber machinery.
